Title: Discontinuation of uEye XLE Rev.1 cameras

Affected Product:	IDS uEye cameras (detailed list of models in document) <ul style="list-style-type: none">• Models with match code UI-3xxxXLE (USB3 interface)
Document Version:	1.0
Release date:	August 1 st 2024

Reasons and Description of the Product Discontinuation

IDS is constantly working on updating and improving its products. One enhancement is the standardization of the hardware basis of the uEye XCP, XLE and XLS series camera families. This adjustment changes the I/O connector of the camera and adds GPIO support.

Cameras with no revision information printed on the camera label are referred to as Rev.1 cameras. IDS decided to phase out the USB3 XLE Rev.1 cameras due to the Rev.1.2 camera successor models.

All details about the revision change from Rev.1 to Rev.1.2 can be looked up in the corresponding PCNs:

- [PCN 2023-09-18 USB3 XLE Rev.1.2 GPIO.pdf](#)
- [PCN 2022-02-24 USB3.3 XLE Connector Change.pdf](#)

Recommended action for customers

Form and fit of Rev.1.2 cameras does not change compared to older revisions.

- No action required when the I/O connector is not used in customer application.
- No action required neither by customer for housed camera versions U3-xxx0XLE or U3-xxx6XLE. The I/O connector is inside the housing and is not accessible.
- The change does affect board level camera models U3-xxx1XLE, U3-xxx2XLE and U3-xxx4XLE.
- The mating I/O connector for the XLE camera must be adapted.

IDS suggests to switch to the below listed successor camera models of the uEye XLE Rev.1.2 series. Customers still have the opportunity to place a final order for uEye XLE Rev.1 cameras by the date listed below. For any question regarding last time orders or successor models, please contact our sales team.

Product Discontinuation Notification

Important Note

The affected discontinued cameras are not supplied with firmware feature updates any more.

Important Dates

End of Sale	Last Shipment Date	End of Support
28 th February 2025	28 th March 2025	28 th March 2028
