

Product Discontinuation Notification

Document availability: **Public**

Title: Discontinuation of uEye LE Rev.1 cameras with USB3 interface

Affected Product:	IDS uEye cameras (detailed list of models in document) <ul style="list-style-type: none">• Models with match code UI-3xxxLE (USB3 interface)
Document Version:	1.0
Release date:	August 13 st 2024

Reasons and Description of the Product Discontinuation

IDS is constantly working on updating and improving its products. Our uEye **LE Rev.1** cameras with USB3 interface were initially released in 2014. Successor cameras based on a modernized new hardware platform are available.

IDS therefore decided to phase out the **uEye LE Rev.1** cameras with USB3 interface due to the **Rev.1.2** camera successor models or respectively alternative camera models.

Cameras with no revision information printed on the camera label are referred to as Rev.1 cameras.

Recommended action for customers

IDS suggests to switch to the below listed successor or alternative camera models of the uEye **LE Rev.1.2** series. Customers still have the opportunity to place a final order for uEye **USB3 LE Rev.1** cameras by the date listed below. For any question regarding last time orders or successor models, please contact our sales team.

Important Notes

- The affected discontinued cameras are no longer upgraded with firmware feature updates.
- Due to higher procurement costs, the prices of the affected cameras will increase by 10% as of January 1, 2025. Important Dates

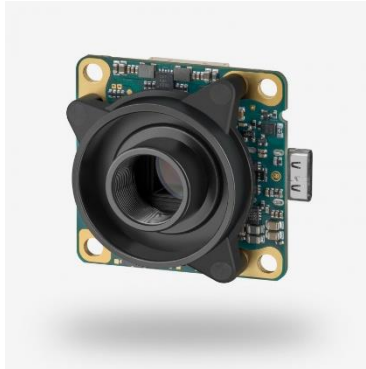

Price adjustment	End of Sale	Last Shipment Date	End of Support
1 st January 2025	31 th December 2025	31 th January 2026	31 th January 2029

Product Discontinuation Notification

Affected Part Numbers and Successors

In case of switching from uEye models (UI) to uEye+ models (U3) the use of IDS peak is required instead of the IDS Software Suite. We recommend evaluating the alternative new camera models.
